

Product Name **damping block**

Primary material	Butyl Rubber
Specifications	Customised services
Performance indicators	<p>Material density: 1.5 g/cm³ to 2.7 g/cm³</p> <p>Vibration damping and noise reduction properties: Rapidly absorbs vibration waves and suppresses impact noise transmission</p> <p>Sealing performance: Strong adhesive properties, suitable for bonding to various material surfaces</p> <p>Environmental performance: Free from harmful volatile substances and non-corrosive, compliant with environmental standards including RoHS and REACH</p>
Product Features	High damping, strong adhesion, environmentally friendly and safe, excellent sealing, long-term stability
Fields of application	Rail transit, domestic appliances, automotive manufacturing, mechanical equipment, construction joint sealing, and other fields
Customised Services	Dimensions, materials and colours can be customised to meet customer requirements.
