

Product Name Drones Folding Tube

Primary material	Aluminum Alloy
Specifications	Customised services
Performance indicators	<p>Yield strength: 110–180 MPa Tensile strength: 180–210 MPa (6061-T6: Yield strength: 240–310 MPa, Tensile strength: 290–310 MPa) Structural strength: Utilising an aerospace-grade aluminium alloy frame, impact resistance is enhanced by 200% compared to previous generations.</p>
Product Features	High-strength aluminium alloy construction, offering high strength, light weight and foldability.
Fields of application	Agricultural plant protection, emergency rescue, logistics transport, educational training drones, etc. Corresponding specifications and models of unmanned aerial vehicles
Customised Services	Dimensions, materials and colours can be customised to meet customer requirements.
