

Product Name **Microcellular polyurethane cushioning block**

Primary material	Glass Fiber/Carbon Fiber
Specifications	Customised services
Performance indicators	Density range: 150–800 kg/m ³ Tensile strength: 0.5–5.0 MPa Elongation at break: 100%–400% Operating temperature: -40°C to 80°C Hydrolysis and weather resistance: Stable performance, suitable for outdoor and harsh environments
Product Features	Closed-cell foam, offering superior resilience and cushioning properties with low compression set.
Fields of application	Tool vibration damping pads, automotive shock absorption systems, mechanical equipment vibration isolation, and bridge vibration damping devices, etc.
Customised Services	Dimensions, materials and colours can be customised to meet customer requirements.
