

Product Name Rubber Wiper Strips

Primary material	NBR
Specifications	Customised services
Performance indicators	<p>Chemical resistance: After 30 days immersion in residual chlorine, copper sulphate, flocculants, acids/alkalis, sodium hypochlorite and similar media, performance retention $\geq 80\%$, volume change $\leq 15\%$;</p> <p>UV resistance: Retains $\geq 80\%$ performance after 168 hours of UV exposure;</p> <p>Temperature cycling resistance: Dimensions remain stable after six cycles between -20°C and 60°C;</p>
Product Features	Corrosion-resistant, highly weather-resistant, resistant to special solvents, and highly effective at scraping off and diverting fluids.
Fields of application	Underwater cleaning robots, underwater inspection equipment, aquaculture cleaning systems, reservoir or port maintenance robots, etc.
Customised Services	Dimensions, materials and colours can be customised to meet customer requirements.
